Event Details:

WRE's First Conference and Exhibition will take place in Bruges, one of the most beautiful cities in Europe and a designated Unesco World Heritage Site. The "Little Venice of the North" is the perfect location to bring together companies and organisations active in the water reuse sector for a two day event packed with presentations from prestigious speakers, discussions, and technical visits including to the world renowned Torreele Water Reclamation Scheme for indirect potable reuse.

The conference is an industry focused event that will bring together 130 delegates including reuse scheme developers, industry leaders, solution providers, technology suppliers, policy makers, researchers, end-users and consultants.
